REV	DATE	PROCESS OWNER	APPROVAL	REASON FOR CHANGE
CY	12/15/2022	Repair Station	QMSDCR0050	Removing SATCOM part numbers that are no longer being process by the repair station due to the transfer of repair and manufacturing to Cobham. Adding capabilities for equipment manufactured by Canyon and products transferred from AEM.
DA	3/22/2023	Repair Station	QMSDCR0070	Added part number RCDU-7000-101-001
DB	1/5/2024	Repair Station	QMSDCR0094	Added PN: RT7000PMR -001-005, -001-C01, -002-001.1-003-010, -004-003, -011-001, -011-003, -011-005, -011-009 and AA95TSO-954. Remove wIFE, PN: 400-071123-01. Correct certification Y/N on 4 part numbers.
DC	5/14/2024	Repair Station	QMSDCR0108	Corrected PN AA95TSO-954 to AA95-954 TSO.
DD	9/30/2024	Repair Station	QMSDCR0116	Update to Make column to include Canyon AeroConnect (CAC). Remove VC-401B (Mod 21) and lower including part numbers 064-1047-00, -02, -10. Add RCDU-7000-001-002. Add detail to definitions column.
DE	11/07/2024	Repair Station	QMSDCR0122	Identified Limitations for Certified=No as 'FAA Only' for Models where no certified part exists. Removed PN: 438-009. Applied SN limitations to RT-5000 analog PN and to PDMC-5030.

1. PURPOSE:

The following is a list of Items by *Make, Model, Part Number, Description, Certified* and *Limitations* identify the products the FAA has approved maintenance functions for the Chelton Avionics Inc. Part 145 repair station.

2. SCOPE:

This document is under the control of Chelton Avionics, Inc. DBA Canyon AeroConnect.

3. Definitions:

Make – The original equipment manufacturer (OEM) of the Model / Part Number.

Model – The model nomenclature identified on the OEM data plate

Part Number – The part number nomenclature identified on the OEM data plate

Description – The description nomenclature identified on the OEM data plate

Certified – Identifies Yes/No certification status, such as TSO or PMA

Limitations – Identifies repair capability restrictions. If more than one restriction applies, the *Limitations* block will include multiple terms as described below.

- **None** – No repair limitations. Eligible for FAA/EASA dual release Form 8130-3.
- **FAA Only** – Eligible for FAA 8130-3 certification. Not eligible for 8130-3 dual release.
- **Inspection** – Maintenance functions are limited to visual inspection
- **Test / Insp** – Maintenance functions are limited to acceptance testing and visual inspection only.
- **SN [identifier]** – Repair capability is limited as indicated by a particular serial number range.

ASA – Allied Signal Aerospace

CAC – Canyon AeroConnect

CAI – Chelton Avionics Inc.

Cobham – Cobham Aerospace Communications

dB Sys – dB Systems Inc.

Insp - Inspection

NAT – Northern Airborne Technology Limited

PMA – Product Manufacturer Authorization

PN – Part Number

RCI – Rockwell Collins Inc.

SN – Serial Number

TSO – Technical Standard Organization

WED – Wulfsberg Electronics Division
